Preparation for Cockroaches

> For an effective cockroach treatment, please read and follow the Preparation Checklist below. **Failure to properly follow the recommended preparation may delay the service and reduce the effectiveness of the treatment.**

PREPARATION CHECKLIST

- ☐ Remove **ALL** items from the upper and lower kitchen cabinets.
- ☐ Remove **ALL** items from kitchen countertops.
- ☐ Remove **ALL** items from bathroom countertops and cabinets.
- ☐ All occupants must leave **before the start** of treatment.
- ☐ All persons must leave the premises **during** the treatment and for at least **3–4 hours after** the treatment.
- ☐ All pets, except fish, must leave the premises for a minimum of **4 hours**. Fish aquariums should be covered and the filters disconnected.
- ☐ A second treatment may be required 2 weeks after the initial treatment.

AFTER TREATMENT

1. Items may be returned to cabinets and countertops **AFTER** the treatment product has dried, which takes 3–4 hours.
2. Countertops and floors may be wiped or washed, but **DO NOT** wipe or wash inside cabinets.
